### **DETAILED ACTION**

1. According to paper filed on April 10, 2008, the applicants have canceled claim 6; amended claims 1-5 and 8-15 and furthermore, have added new claims 16 and 17.
2. Claims 1-5 and 8-17 are now pending in the application.

### ***Response to Arguments***

3. Applicant's arguments filed on April 10, 2008 have been fully considered but they are not persuasive regarding prior art rejection over Buckett's reference. In regard to other prior art rejections, the applicants have amended claims to overcome these rejections. In regard to Buckett's reference, the examiner does not agree with the applicant's arguments that this reference does not anticipate the instant claims. This reference does anticipate the instant claims when R2 represents either  $\text{--COCH=CH-Ph}$  ( C9-arylalkenoyl group ) or  $\text{--COCH=CH.CH}_3$  ( C3 alkenoyl group ) in the instant compounds.

### **NEW GROUNDS OF REJECTION**

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-5 and 8-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to

Art Unit: 1625

one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The applicants have amended claims ( specifically 1-4 ) to insert new values of variables R2. These values introduce new matter since such values ( excluding specific alkyl groups ) were not present in the original specification.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1625

7. Claims 1-5 and 8-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1-3, the values of variable R2 defined as C8-C16-arylalkyl or arylalkenyl where aryl is C6-C10-aryl and alkyl is C1-C6-alkyl or alkenyl is C2-6-alkenyl are indefinite and confusing since when aryl is C6 and either alkyl is C1 or alkenyl is C3, it will represent C7 arylalkyl group or C9arylalkenyl group which have been excluded by this amendment. Alternatively, there is no support for the aryl group to be 7-membered group since all the exemplified compounds are directed to 6-membered aryl group.

Claim 5 recites the limitation "benzyl for variable R2 in several compounds on page 11" in claim 1 or 2. There is insufficient antecedent basis for this limitation in the claim.

### ***Conclusion***

8. Rejection of claims 1, 5, 8, 10-12, 14 and 15 under 35 U.S.C. 102(b) over Buckett's reference is maintained for the reasons of record.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1625

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
